## Press release

Zurich, 23 May 2022

### Property One continues to expand: new Basel branch

The real estate specialist Property One has further expanded its geographical presence. In addition to its offices in Zurich, Zug and Ascona, Property One now operates a branch in Basel. This expansion allows the company to tap into an economically important region of Switzerland and offer its services on location with much greater client proximity.

Enthusiasm and passion for good property solutions: Property One now operates in Basel as well as in Zurich, Zug and Ascona. The regional focus in Basel is on sourcing investment opportunities in new builds and existing properties, on marketing and on providing financing solutions. In addition, clients in Basel also have access to the company's entire portfolio of services: development, execution and real estate family office.

As a stakeholder in Property One Basel AG, David Wirz will be managing the new office and positioning and establishing the Property One brand in the region. David Wirz has been an independent entrepreneur in the property industry for more than 20 years and brings a strong network of local connections to the table. Mortgage advice, property development and management, marketing and more: with David Wirz, Property One gains an outstanding real estate professional with a great deal of experience and valuable knowledge of the regional market.

"We are pleased that we will be able to serve the attractive Basel market, our existing and new clients in the area, and our future local business partners directly on location in future. With David Wirz, we have gained a competent partner who will fully embrace and embody the culture and service level of Property One", Kevin Hinder, Co-Founder and CEO of Property One, commented on the new office.

David Wirz, Partner and Head Basel, said: "My greatest passion is the acquisition of project developments, marketing of quality residential real estate, and networking of property owners, investors, project developers and architects. I am proud and delighted to be representing the renowned Property One brand in the Basel region and building its fourth location together with a dynamic team."

Property One is currently exploring suitable premises in Basel. There are also open vacancies: [www.propertyone.ch/en/about-us/jobs/](http://www.propertyone.ch/en/about-us/jobs/)

## About Property One

With sustainable and innovative solutions, Property One creates more value for its clients and gets people excited about real estate. At its four locations in Zurich, Zug, Basel and Ascona, the company combines expertise in the fields of investment, financing, development, execution and marketing as well as real estate family office under one roof. This comprehensive value chain allows Property One to cover the entire property life cycle.

The company consists of an interdisciplinary team and serves all areas in-house, ensuring successful project completion that is both time- and cost-efficient. On request, Property One acts as a central interface for all players involved in a project with regard to planning, coordination and organisation, both for private clients and for professional investors. Property One keeps a constant eye on market developments and reaches out to the various service providers at the appropriate time. The real estate service provider offers financing advice, supports the various construction phases, ensures that quality standards are adhered to, takes care of the marketing side of things and structures customised participation models.
